

# Huggable Images™

## Custom Designed SAFETY Training Dolls

It is estimated that up to 87.5% of children may not be properly restrained.

**Huggable Images™** worked with the Kansas Safety Belt Education Office to create a set of training dolls that would resemble true to life size children. These dolls would be used to teach accurate fit and proper installation of children in child safety seats.

**Huggable Images™** recognizes the impact CPS Training has on the safety of our children and we are committed to resolve this training issue.

Infant in rear facing car seat

16 month old in convertible car seat

3 year old in convertible car seat

6 year old in high back booster

## Safety Training Dolls

- Designed specifically for CPS Training.
- Cost effective solution for Child Passenger Safety training.
- For easy transporting the largest doll weighs less than 10 lbs.
- Firm torso/pelvis that doesn't collapse during seat belt demonstration.
- A lanyard pouch with a clear window is attached so age, size and weight of a child can be displayed for specific training.
- Varied skin tones to represent diverse ethnicities.
- Can be full customized for your specific need.

**Huggable Images™** has designed these safety training dolls based on the median size of the following ages to represent six stages of child safety seats.

### Each doll represents the following age, size & weight

8 Year Old	4" 9" tall	80 lbs.
6 Year Old	46" tall	46 lbs.
3 Year Old	38" tall	30 lbs.
16 Mo. Old	31" tall	20 lbs.
Infant	17" tall	7 lbs.
Preemie	17" tall	4 lbs.

The 8 yr. old, 6 yr. old, 3 yr. old and 16 month old have a permanent bend in the knees for a proper safety seat fit.
